2 July 1976

MEMORANDUM FOR: The Director
Federal Bureau of Investigation

FROM : Robert W. Gambino
Director of Security

SUBJECT : Office of Security Requirements
for FBI Reporting

1. Pursuant to Executive Order 11905 of 19 February 1976 and the implementation of Central Intelligence Agency (CIA) internal regulations, the CIA's Office of Security is charged with numerous responsibilities which cannot be effectively carried out without the excellent cooperation which exists between your Bureau and the Office of Security. To avoid any future misunderstanding, provide a record of our requests, and to furnish guidance to officers of our organization, I have identified categories of information which the Office of Security has a continuing need to receive from the Bureau on a regular basis.

2. Specifically, and in accordance with Executive Order 11905, I respectfully request that the Bureau advise this Office on matters pertaining to the following:

a. Information of a counterintelligence nature affecting present or former CIA employees and other persons who are or were similarly associated with the CIA.

b. Information concerning any individual suspected and/or known to be in unauthorized possession of classified CIA intelligence information or documents.

c. Information concerning activities by any individual or group which could adversely affect the security or safety of the CIA's personnel, installations, and activities.

d. Information concerning any current CIA employee or contract employee, or any other individual similarly associated with the CIA as a contractor's employee, which would reflect adversely on that individual's suitability for continued CIA employment and/or access to CIA classified information.

3. The above categories, which are of specific interest to the Office of Security, are not intended to limit or otherwise affect existing arrangements whereby your Bureau presently provides information to the CIA's Directorate of Operations in support of the DCI's foreign intelligence/counterintelligence mission. Of course, our mutual exchange of information in connection with routine name checks pursuant to Executive Order 10450 will also remain unaffected.

4. As indicated, I am most appreciative of the cooperation extended to the Office of Security by representatives of your Bureau. It is hoped that the categories of information set forth in paragraph two above will be of some assistance in identifying those reports which are of interest to this Office. This memorandum has been coordinated with our Office of General Counsel and the Inspector General. If I can be of any assistance to you, please let me know.

Robert W. Gambino
